

AccessABILITY

Explore Assistive Communication with CTEC!

Thursday, April 25, 2019 5:30 -7:00 PM
Arden-Dimick Library, 891 Watt Ave, Sacramento

Come see, hear and experience how individuals with complex communication needs use tablets, iPads and special computers to find their new voice and increase participation in their community.

This exciting and informative presentation will include:

- CTEC's new **STAR (Supportive Training with Active Respect) online program** presented by individuals using their communication systems (www.ctecaac.org).
- Sacramento Public Library staff will also demonstrate the new **We Speak Library** speech device which enables non- or less verbal patrons to communicate successfully with library staff.
- Voice Options will discuss how anyone in California can have a **communication system at no cost** (www.voiceoptions.org).

This event hosted by Sacramento Public Library in partnership with CTEC (Communication Technology Education Center) in support of our AccessABILITY services priority.
